# Welcome to Habersham Immigration & Educational Consulting Services, Inc.

Habersham Immigration & Educational Consulting Services is an immigration and educational consulting

company. We have extensive experience and training handling all types of immigration cases and providing assistance to individuals, small businesses and educational institutions regarding compliance with federal law and immigration regulation. We are not lawyers; we are specialists who handle matters related to the immigrant population and their employment and education. We also assist small businesses and local communities with cultural awareness training and development of community outreach programs.

Our expertise lies in the fact that over the years we have handled a variety of immigration and educational situations with a very high success rate.

## Consulting Services

We offer consulting services to individuals, small businesses and educational institutions. Our services are designed to fit the specific needs of our clients. We have provided several examples of our services available.

### **SMALL BUSINESSES**

- \* **Serve as extension of human resources departments and provide assistance with matters related to non-resident employees**
- \* **Provide audits of current practices and assuring compliance with federal law**
- \* **Cultural awareness/diversity training for all employees**
- \* **And much, much more!**

## Getting Started

We believe that immigration today helps maintain the vision of freedom on which this country was founded. However, the employment and education of these individuals can be a complicated process governed by the Immigration and Nationality Act and many other federal regulations.

Our goal is to provide individuals, small businesses and educational institutions with professional, competent and experienced services.

If you would like to take advantage of our consulting services, please contact us for an initial consultation.

We look forward to working with you!
